Comcast.net | xfinity.com | xfinitytv.com

REQUIREMENTS:

• Minimum involvement of 2 years designing Internet, mobile or equivalent interactive experiences with an expert ability to successfully organize, prioritize and manage multiple projects in a deadline-driven environment.
• Bachelors Degree in Design, Computer Science, Human Factors or equivalent work experience with any combination of expert Visual Design, Writing, Information Architecture, Presentation and Collaboration skills.

• Excellent facilitation, brainstorming and collaboration skills with expert user experience orientation and exceptional people skills.

• Proficient with diverse writing, presentation, project management software.

• Must have an expert understanding of the most recent version of Photoshop and Illustrator. Knowledge of Fireworks, CSS, Dreamweaver, GoLive, After Effects, 3d Software, iWorks and Microsoft Office are a plus.

• Must be comfortable working with established UX guides and/or the ability to assist in their continued evolution.

• Experience designing robust Flash and HTML web sites and/or mobile with highly intuitive or deep User Interfaces and navigation schemes.

• Superior visual literacy and expert understanding of typography, illustration, color theory, wire framing, and photo manipulation.

• Must have expert verbal communication skills, including the ability to speak effectively before staff or other internal groups.

• Demonstrated ability to work effectively across organizational boundaries with the ability to prioritize and execute.

• Knowledge and practice of UX industry best practices including User-Centered Design.

• Expresses a passion and desire to innovate and push boundaries.

• Proven experience as a design leader developing products to large consumer base.

• Experience in an agency environment executing UX a plus (e.g., Razorfish, Sapient, AKQA, etc.); track record of product development-oriented projects preferable.

• Experience with internal/external teams and/or partner relationships and resources.

• A expert portfolio of solid web, mobile and multi-media are required. Broadcast, print, identity, packaging, storyboard sketches are a plus
